ORIGAMI JUMPING FROGS

AIM

Learn the basics of origami by creating a jumping frog from just a single piece of paper.

WHAT YOU'LL NEED

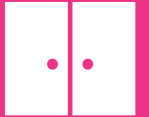

- Download 'Origami Jumping Frogs' Instruction Sheet
- Green paper
- Green colouring pens
- Scissors
- Googly eyes (optional)

GET CREATIVE

15 MINUTES

IN THE
CUPBOARD

GET CREATIVE: ORIGAMI JUMPING FROGS

THEME: ARTY AND CRAFTY

LEADER PREPARATION

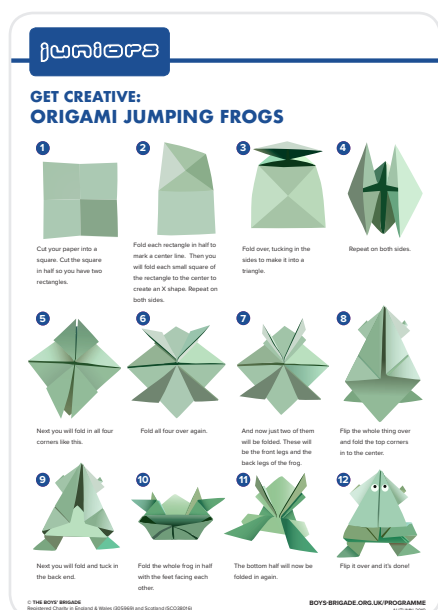

Before the activity, it would be useful for a leader to have a practice making the frog, so they are confident in the steps and can help children when they make it.

GETTING INTO THE ACTIVITY

Download the 'Origami Frog' instructions to enable you to lead your group in making these Origami Jumping Frogs.

DID YOU KNOW?

- Many frogs can jump 20 times their own height – some even higher!
- Frogs come in all sorts of colours.
- There are over 4,700 species of frogs!
- They are found on every continent except Antarctica.
- Frogs don't drink water with their mouths; they "drink" by absorbing water through their skin.

IDEAS TO TAKE THIS FURTHER...

Using the origami frogs which have been created, have some challenges and competitions between your group. Whose frog can leap the highest or onto a target? Whose frog can win a race across the room? Can your group come up with their own challenge?

KEEPING EVERYONE SAFE

Always take caution and ensure appropriate supervision when using scissors.
